

Enjoy physics???

Then **HIP** needs your help!

The **HIP** (History in Physics) program aims to increase public understanding and appreciation of all things physics through history and hands-on displays. It offers students the opportunity to develop material and exhibits in the Physics Museum in Chamberlin Hall at the University of Wisconsin, Madison.

Help to:

- Construct new displays
- Create hands-on educational material
- Promote public understanding of Physics

All while learning and thinking about physics in new ways.

For undergraduate students enrolled in Physics 248, participating in this project fulfills your honors project requirement. Please ask your professor.

Einstein was **HIP**. Are you?
